

Factur-X e-Invoice

EDITION CAPABILITY SIGNATURE STANDARDS GENERATED

Enterprise PDF/A-3 + Factur-X XML embedding — ISO 32000-2 · ISO 19005 · EN 16931 2026-07-14

One invoice, two audiences: this page is the human-readable layer of a **hybrid Factur-X e-invoice**, and the same invoice travels beside it as EN 16931 structured data (`factur-x.xml`) that accounts-payable platforms post without retyping a figure.

Accounting systems extract and post the XML directly; auditors and people keep this archival page — one file, byte-for-byte the same invoice in both worlds.

Payment due within 30 days of the invoice date (Net 30) — payable by 2026-07-27. Reference INV-2026-0042 on all remittances. Demonstration data only. All amounts in USD.
